EMPOWERING EDUCATION IN PATIENTS WITH COLORECTAL CANCER

Errata

Sivu 48, luku 5.3.2 Effectiveness of the intervention

Korjattava teksti: 'Baseline activation scores did not correlate with the change in scores after the intervention in IG ($r = -0.06$, $p = 0.70$) indicating that tailoring the education according to participants' activation level did not enhance the effect of the intervention (Figure 11).'

Korjattu teksti: 'Baseline activation scores did not correlate with the change in scores after the intervention in IG ($r = -0.13$, $p = 0.40$) indicating that baseline activation scores did not have an effect on the change in the activation level (Figure 11).'

Sivu 20, luku 2.4 Patients with colorectal cancer

Korjattava teksti: 'In 2020, the number of new patients / 100 000 per year was 1645 in female and 1878 in male.'

Korjattu teksti: 'In 2020, the number of new patients per year was 1645 in female and 1878 in male.'
