Sivu 7 ja 58: Conclusion

Korjattu: Conclusions

Sivu 7 ja 61: Reference

Korjattu: References

Sivu 56: For example, broad-spectrum receptor TKIs which inhibit both EC and tumor cell functions such as Sutent (Sunitinib; SU11248), an inhibitor of PDGFRs and VEGFRs, may have better efficacy as cancer monotherapy (Carmeliet, 2005).

Korjattu: Broad-spectrum receptor TKIs which inhibit both EC and tumor cell functions such as Sutent (Sunitinib; SU11248), an inhibitor of PDGFRs and VEGFRs, may have better efficacy as cancer monotherapy (Carmeliet, 2005).
